Prof. Michal Rygl is the head of the Department of Pediatric Surgery of Motol University Hospital in Prague and a professor at the 2nd Faculty of Medicine of Charles University. Under his leadership, the field of pediatric surgery in Prague entered a new modern era of minimally invasive procedures, in which he supports and motivates young surgeons to improve their minimally invasive skills. He is a leading expert in hepatobiliary surgery and neonatal surgery – especially in congenital diaphragmatic hernia and esophageal atresia. He enthusiastically passes on his experience to medical students, in whom he tries to arouse interest in the field of surgery. As a modern boss, he gives equal opportunities to both men and women, for which he is appreciated. He is the head of the Czech Association of Pediatric Surgeons and an active member of many surgical organizations as well as author and co-author of dozens of professional publications.

Prof. Sameh Shehata is the president of the World Federation of Associations of Pediatric Surgery (WOFAPS). He is a Professor of Pediatric Surgery Department at the Faculty of Medicine, University of Alexandria, Egypt. He is the past president of the IPEG middle east chapter, the past president of the Egyptian Association of Pediatric Surgeons (EPSA), and the past chairman of the Pediatric Surgery Department at the Faculty of Medicine, University of Alexandria, Egypt. Dr. Shehata is the innovator of the technique of laparoscopic traction for the intra-abdominal testis which is known as the Shehata technique and is widely practiced now in many centers worldwide. He is also the founder of the largest online Pediatric Surgery forum (The Pediatric Surgeon’s lounge) where over 3000 pediatric surgeons worldwide discuss and exchange experiences every day. Dr. Shehata is among the editorial board of many National and International Pediatric Surgery Journals including the JPS, Medicine, Annals of Pediatric Surgery, and International Journal of Urology. He has shared as a speaker, keynote speaker, moderator, and panelist in more than 250 National and International meetings.

Prof. Steven Rothenberg is the Chief of Pediatric Surgery and the Chairman of the Department of Pediatrics at the Rocky Mountain Hospital for Children in Denver, USA. He is a world leader in the field of endoscopic surgery in infants and children and has pioneered many of the procedures using minimally invasive techniques. Dr. Rothenberg completed medical school and general surgery residency at the University of Colorado in Denver. He then spent a year in England doing a fellowship in General Thoracic Surgery prior to returning to the states where he completed a two-year Pediatric Surgery fellowship at Texas Children’s Hospital in Houston. He returned to Colorado in 1992 where he has been in private practice for the last 15 years. Prof. Rothenberg was one of the founding members of the International Pediatric Surgical Group (IPEG) and is its recent past-president. He was also the Chair of the Pediatric Committee and on the Board of Directors for SAGES (The Society of American Gastro-intestinal Endoscopic Surgeons). He has authored over 100 publications on minimally invasive surgery in children and has given over 200 lectures on the subject nationally and internationally. He is also an editor for the Journal of Laparoendoscopic and Advanced Surgical Techniques.
Prof. Richard Škába is a leading Czech expert in pediatric colorectal surgery. He has dedicated his entire life to the treatment of children with congenital rectal defects and has devoted himself tirelessly to them while also improving the surgical technique and care of these patients. He has been an active participant in the Pediatric Colorectal Club, meeting since 1995, and in 2016 he successfully organized this international meeting in Prague. He was the head of the Czech Surgical Association of Pediatric Surgeons from 2003-2013 and since 2004, he has been the Associated Editor of the European Journal of Pediatric Surgery. In addition, he is also a popular professor at the 2nd Faculty of Medicine of Charles University, where he lectures on his life experience in the field of pediatric colorectal surgery. Prof. Škába has been a visiting professor at Necker Hospital in Paris, Montpellier, and Denver as well as Johns Hopkins Hospital in Baltimore. His book Pediatric Proctology for Practice was awarded the best Czech medical book of 2019.

Prof. Jiří Šnajdauf is now professor emeritus at the Department of Pediatric Surgery at Motol University Hospital in Prague. He successfully led this department for three decades. He is a leading expert on hepatobiliary and pancreatic surgery, especially on duodenum-sparing pancreatic head resection in children, which he was the first to publish. During his lifetime, he also operated on hundreds of patients with pectus excavatum using the Nuss method, to which he contributed his own improvement – the use of a sternal hook to elevate the inverted sternum, which greatly contributes to the safety of the MIRPE method. At the beginning of his career, he established a unique surgical intensive care unit for newborns and thereby reduced the number of deaths from congenital newborn defects by several percent. He is the author and co-author of dozens of professional publications and a mentor to pediatric surgeons throughout the Czech Republic.

Prof. Ivan Fattorini is a famous Croatian surgeon, Head of the Department of Pediatric Surgery at Children’s Hospital Zagreb (1990-2007). He devoted his whole life to pediatric surgery – helping children and their families in their difficult times. His specialty in the field was general pediatric surgery and pediatric urology. He was the President of Croatian Society of Pediatric Surgeons (1995-2009), WOFAPS vice president (2007-2010) and he received Steven Gans Award of AAP in 2001. He was director of the hospital during Civil War in Yugoslavia and fought for the Rights of children during the War. He connected people and physicians during the war times. He enthusiastically passed on his acquired skills to colleagues in his country and to other colleagues from around the world. He is author and co-author of many professional publications.
Prof. Alberto Peña, MD, FAAP, FACS, FRCS, born in Mexico City, Received his medical education at Military Medical School. Received his training in general surgery and pediatrics for six years at the Military Hospital Mexico. Trained in pediatric surgery at Children’s Hospital Boston for 3 years. Upon returning to Mexico, he was the Chief of Surgery for the National Institute of Pediatrics for thirteen and a half years. In 1980, performed the first posterior sagittal operation to repair anorectal malformations. In 1982 performed the first posterior sagittal approach to repair a cloaca. Chief of Surgery at Schneider Children’s Hospital in Long Island, New York for 20 years. (1985-2005). Created the first Multidisciplinary Colorectal Center for Children at Cincinnati Children’s hospital. (2005-2015). As of February 1, 2016, Dr. Peña became the Director of the International Center for Colorectal and Urogenital care at Children’s Hospital Colorado and Professor of Surgery University of Colorado. He is now Emeritus professor and Founder Director of the International Center for Colorectal and Urogenital Care at Children’s Hospital Colorado. Dr. Peña has been a Visiting Professor in different countries 534 times. He has published over 200 articles in international literature and more than 80 chapters of textbooks.

Dr. J. Enrique Villamizar Z. is a pediatric surgeon at the Hospital Universitario Erasmo Meoz, Cúcuta, Norte Santander, Colombia. He has more than 20 years of experience in the field and, in addition to the wide spectrum of pediatric surgery diagnoses he treats, he is a specialist in minimally invasive surgery. He is a co-president of Capítulo Académico Latinoamericano del IPEG (International Pediatric Endoscopy Group), ex presidente de Sociedad Colombiana de Cirugía Pediátrica SCCP, Presidente de Asprohuem, Member of the Junta Directiva del Colegio Médico Colombiano, especialista en Docencia Universitaria UFPS. Dr. Villamizar is well-known for his interest in achieving the physical and the mental well-being of his patients.

Dr. Naomi Wright is a Paediatric Surgery Registrar at the Department of Paediatric Surgery in Oxford University Hospitals NHS Trust and a Wellcome Trust Clinical PhD Fellow at King’s Centre for Global Health and Health Partnerships in London, UK. She is the Principal Investigator for the Global PaedSurg and PaedSurg Africa Research Collaborations (@PaedsSurgeon, @GlobalPaedSurg), an organiser for the Global Initiative for Children’s Surgery (@GICSurgery, www.globalchildrenssurgery.org) and a representative for the British Association of Paediatric Surgeons International Affairs Committee (@BAPS_IAC). Her PhD is entitled: Defining global disparities in mortality from gastrointestinal congenital anomalies and developing and implementing an interventional bundle to reduce mortality from gastroschisis in low-resource settings. She is author and co-author of over 50 scientific publications in the field.

VENUE
Cubex Centre Prague
Na Strži 2097/63
140 00 Prague 4
Website: https://www.cubexcentrum.cz/

Access to the building from the direction of the main road/metro is restricted due to construction. On the map below you can see the detour to the building.

How to reach the venue?
Cubex can be easily reached by metro line C (red line) to the station “Pankrác”, Cubex is located about 100 metres from metro station.

Arrival from the Airport
The distance from the Václav Havel Airport Prague is 20 kilometers. A taxi ride from the airport to the Cubex Centre Prague will take approximately 30–40 minutes and costs about 25–30 EUR. You can also travel by public transport. Take the bus No. 119 towards “Nádraží Veleslavín” (METRO station). Leave the bus at the end stop and change for the METRO green line “A” the direction towards “Depo Hostivar”. You will go 7 stops to the station “Muzeum”. Change there for the METRO red line C and go to the station “Pankrác”. Take either escalator up to the next level where you will have to take an additional escalator or stairs to reach ground level. Cubex is situated approximately 100 m from the metro station.
Arrival by car

If travelling northbound from Brno on Highway D1, follow the E50 route, which then becomes 5. května (May 5th Street) or locally known as ‘Magistrala’ and is more of an inner-city highway or boulevard than a typical city street. From there you should easily recognize the Arkády shopping center on your left-hand side, where you can find parking.

Parking information

Ample parking has been made available for all visitors in the Arkády shopping center parking lot located less than 100 m from the KCC. Please note in advance that the first 2 hours of parking there are free and any additional time is 40 Czech crowns per hour.

PUBLIC TRANSPORT

Prague has a very efficient subway, tram and bus transportation system. On the new Prague underground, peak hours trains run every 1 or 2 minutes, and during off-peak hours at least every 10 minutes. The most recent information on Prague’s transportation system can be found on the official website.

Subway

The Prague Subway network consists of 3 lines designated by letters and differentiated in colour: A – green colour (Depo Hostivař station – Nemocnice Motol station), B – yellow colour (Černý most station – Zličín station), C – red colour (Letňany station – Háje station), with transfers possible at Museum station (lines A and C), Můstek station (lines A and B), Florenc station (lines B and C). Subway operates daily from 5 a.m. till midnight.

Trams

Daytime operation is from 4:30 a.m. till midnight. Night-time operation is from 00:30 a.m. to 4:30 a.m. and is provided by tram numbers 91 to 99 with traffic intervals of 30 minutes. The central transfer-station for night-time lines is Lazarská stop. Tram schedules are located at individual stops. The tram stop which is marked with the sign =M= means that there is the possibility to get out and continue with the subway(metro).

Buses

The daytime and night-time operation of buses is similar to tram operation. Night-time service is provided by bus numbers 901 to 915. Bus schedules are located at individual stops.

PRAGUE – PLACES OF INTEREST

Prague, City of a Hundred Spires, a UNESCO monument and one of the most beautiful cities in the world.

The Old Town Hall with the famous Prague Astronomical Clock. The winding lanes of the Jewish Quarter, which you know from the novels of Franz Kafka, steeped in the legend of the Golem. Cafes enticing you to come and have a seat, boutiques and sight-seeing cruises on the Vltava. The Gothic Charles Bridge and Church of St. Nicholas in the Lesser Town, the most beautiful Baroque church in Prague. The Palace Gardens set away from the bustle of the city, Petřín with a lookout tower reminiscent of a small Eiffel Tower and Prague Castle. Each of Prague’s districts has its own characteristic atmosphere and unique charm. Prague presents itself to you as a changeable city, which likes to alternate styles: it is romantic and successful, ancient and modern, but above all, it is a city that is cosmopolitan through and through and is used to welcoming foreigners. It is time to get acquainted.
